PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Developer with a strong academic background in Computer Applications, holding a Bachelor of Computer Applications (BCA) from KIPS College and a Master of Computer Applications (MCA) from SVIMS, Indore. Hands-on experience with Java-based application development, web technologies, databases, REST APIs, and software development practices. Familiar with developing responsive web applications, implementing backend services, debugging application issues, and working with relational and NoSQL databases. Strong understanding of Object-Oriented Programming, Data Structures, DBMS, Operating Systems, Computer Networks, and Software Engineering. Interested in building scalable applications and AI-assisted software solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, JavaScript, SQL

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS

Backend: Java, JSP, Servlets, Spring Boot, REST APIs, Node.js, Express.js

Databases: MySQL, MongoDB, PostgreSQL

Java Technologies: Core Java, OOP, Collections Framework, Exception Handling, Multithreading, JDBC, JSP, Servlets, Java 8 Features

Development Tools: Git, GitHub, IntelliJ IDEA, Visual Studio Code, Postman, Maven

Concepts: Data Structures & Algorithms, OOP, DBMS, SDLC, Agile, REST Architecture, MVC, Design Patterns, API Integration

AI & Modern Technologies: Generative AI, LLM APIs, Prompt Engineering, AI-assisted application development, Resume/JD analysis

EXPERIENCE

Junior Software Developer

TechNova Solutions, Indore | July 2025 – Present

- Developed and maintained web applications using Java, Spring Boot, HTML, CSS, and JavaScript.
- Created REST APIs for frontend and backend communication.
- Worked with MySQL and MongoDB for application data management.
- Implemented CRUD operations and database queries.
- Debugged application issues and resolved functional and UI-related bugs.
- Participated in requirement analysis, development, testing, and deployment activities.
- Followed Agile development practices and participated in sprint planning and daily team discussions.
- Used Git and GitHub for source-code management and collaboration.
- Worked with developers and testers to identify and resolve application defects.
- Improved application performance by optimizing database queries and backend logic.

PROJECTS

CareerPilot AI — AI-Powered Job Search & Application Assistant

Technologies: React.js, Python, FastAPI, MongoDB, LLM, REST API

- Developed an AI-powered platform designed to assist users throughout the job application process.
- Implemented resume upload and automated resume parsing to extract skills, education, experience, and other relevant information.
- Designed a Job Description matching system to compare candidate profiles against job requirements.
- Implemented resume scoring based on skills, experience, education, and keyword relevance.
- Added AI-assisted cover letter generation based on candidate information and job descriptions.
- Designed an application tracking dashboard to manage applied, shortlisted, rejected, and pending applications.

- Integrated AI/LLM functionality for intelligent resume analysis and personalized recommendations.
- Designed responsive dashboard interfaces with reusable UI components and interactive data visualization.

Student Management System

Technologies: Java, JSP, Servlets, HTML, CSS, Bootstrap, MySQL

- Developed a web-based student management application using Java and JSP/Servlets.
- Implemented student registration, login, profile management, attendance, and academic record modules.
- Used JDBC for database connectivity and CRUD operations.
- Implemented MVC-based application structure for better maintainability.
- Added form validation and session-based authentication.
- Designed responsive interfaces using HTML, CSS, and Bootstrap.

Employee Management REST API

Technologies: Java, Spring Boot, MySQL, REST API, Postman

- Developed REST APIs for employee creation, retrieval, updating, and deletion.
- Implemented layered architecture using Controller, Service, and Repository components.
- Used Spring Data JPA for database operations.
- Tested APIs using Postman.
- Implemented exception handling and input validation.

EDUCATION

Degree	Institution	Year
Master of Computer Applications (MCA)	SVIMS, Indore, Madhya Pradesh	2024 – 2026
Bachelor of Computer Applications (BCA)	KIPS College, Madhya Pradesh	2021 – 2024

Relevant Coursework: Advanced Java, Software Engineering, Database Management Systems, Computer Networks, Operating Systems, Web Technologies, Data Structures, Artificial Intelligence.

CERTIFICATIONS

- Java Programming and Object-Oriented Programming
- Spring Boot & REST API Development
- SQL and Database Management
- Web Development with HTML, CSS & JavaScript
- Git & GitHub Fundamentals
- Introduction to Artificial Intelligence and Generative AI

KEY STRENGTHS

Problem Solving • Logical Thinking • Quick Learning • Debugging & Troubleshooting • Team Collaboration • Communication • Adaptability • Time Management

INTERESTS

Software Development • Artificial Intelligence • Generative AI • Full-Stack Development • Cloud Technologies • Automation • Open-Source Projects

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
